

Sweet Strawberry Milkshake

Milkshake Programme

Serves 4 – Preparation time: 10 min – Resting time: 3 hours

400 ml almond milk
2 scoops vanilla ice cream
200 g strawberries
1 banana

Pour half of the almond milk into ice cube trays and freeze for at least 3 hours.

Wash and hull the strawberries and cut into pieces if they are large. Peel and dice the banana. Add the almond milk ice cubes, vanilla ice cream, strawberries, banana and the rest of the almond milk to the blender. Select the Milkshake programme, then press the Start/Stop button. When the programme is finished, pour the milkshake into large glasses and serve immediately.

Tips:

If strawberries are not in season, use frozen raspberries and skip step 1 (almond milk ice cubes).

Try using homemade almond milk (using the Almond Milk recipe).
